Mr. Herbert E. Farmer
Director of Services
University of Southern California
Department of Cinema
University Park
Los Angeles 7, California

Dear Mr. Farmer:

The members of Beta Chapter are extremely pleased to hear of the revitalization taking place at the national office. Your newsletter, which has been read by all our members, has had a telling effect. The interest and co-operation of both active and inactive members has increased and shows signs of continued growth.

Beta Chapter has been moderately active this past semester. The D.K.A. Film Club program, mentioned in our newsletter last fall, is still being offered to those interested in quality films. We are also participating in a film series, "Film Festival", sponsored by the Museum of Science, Boston University and the Massachusetts Institute of Technology. It is our hope that next semester will find us more active.

Many alumni have shown an interest in re-establishing their membership with National. Will you please forward information concerning the re-establishment of members, at your earliest convenience. This is indeed an opportunity to cement relationship between D.K.A. alumni and National, one that should not be lost.

Thank you for your renewed interest. More information concerning our activities, past, present and future will follow shortly.

Sincerely yours,

Raymond E. Marinelli
